PRIVATE & CONFIDENTIAL

Re: Reference for NEU Professionals

To Whom it May Concern

Counties Manukau Health has worked with a number of agencies to assist in the crucial task of growing our workforce to keep up with the demand of medical presentations that come through our hospital. One of our partners we have worked with closely to provide overseas midwives is NEU Professionals.

We have partnered with NEU Professionals since early this year, with them assisting in providing midwives for our teams to meet. As you can imagine given the current climate with Covid restrictions, it has not been an easy task but Edyta and her team have provided us with some exceptional candidates, who we have offered roles to every time.

Candidates that have been presented to us have been high calibre and the team have also kept me updated on any changes that may occur with candidates, and other changes to the process. Candidate care is also a high priority for them, which enables a smooth exchange between us and the candidates presented. Our midwifery management team have commented time and time again that the candidates we have received from NEU Professionals have been fantastic and we hope to have them arrive in New Zealand as soon as possible.

NEU Professionals have been exactly that, extremely professional and very easy to work with. The team respond efficiently, even with being based on the other side of the world and time differences. We've built a great relationship with Edyta and the team and will continue to do so into the future.

It has been a pleasure collaborating with the NEU Professionals team. Please feel free to reach out to me if you have any questions.

Kind Regards,

Francine Upoko
