To whom it may concern

NEU Professionals currently form part of our CapitalNurse Consortium that is contracted to provide international recruitment with 18 trusts across London to source general adult, community, mental health, and theatre international nurses. This contract is a two-year contract, with an option to extend to a third-year term, with a supply of between 100-400 nurses per annum.

NEU Professionals have particularly excelled in their innovation to source 'hard to fill' roles in mental health and maternity, bringing expertise in building new candidate pipelines quickly, and then providing excellent service support to trusts who are new to International Recruitment sourcing. They have suggested innovative pilots that we are progressing with and have been a front runner in identifying and sourcing new pipelines for our midwifery recruitment.

Please do not hesitate to contact me should you require any further information.

Kind regards
