To whom it may concern

I have no hesitation in recommending Neu Professionals as a partner for overseas recruitment.

I have found over the period of time that I have personally been involved with Neu Professionals that they are supportive, responsive and informative. Neu Professionals have adapted to suit our needs

The quality of the candidates provided in our recent campaign was exceptional. Neu Professionals responded to our criteria and sent us through only candidates that matched our needs. This ensured that the interview process had better outcomes.

We have been kept informed of progress of our pipeline and the support to the nurses up until the time of handover to our welcome team has been exceptional. They care for the nurses that they have provided to us. I have kept Neu Professionals updated on the success of the nurses and they were genuinely delighted for them.

Recently we made an enquiry about support for a potential campaign. The information and guidance received was tremendous. The nurse recruitment team were very impressed.
